RAILWAY MACHINERY

PANDROL CLIP MACHINE Mod. G2-TS

Patented

Machine used to insert and remove Pandrol type rail clips, with dismantable frame.

Cod.F1048: 4-stroke engine (3.6kW/4.8Hp)

Weight: 227-300 Lbs (103-136kg)

1

PANDROL CLIP MACHINE Mod. G2-SEC

Machine used to insert and remove Pandrol 2009AV type rail clips, with dismantable frame. The particular construction of the machine allows extraction of the clip without damaging the sleeper.

Cod.F1131B01: 4-stroke engine (3.6kW/4.8Hp)

Weight: 286 Lbs (130kg)

PANDROL CLIP MACHINE Mod. G4

Machine particularly fast in the application of Pandrol e-clips to the sleepers. The machine inserts 4 pandrol clips on the same sleeper per cycle. Upon request: Hydrostatic transmission and device for lifting low sleepers.

Cod.F1011B10: 4-stroke engine (13kW/18Hp)

Weight: 1520 Lbs (690kg)

FAST-CLIP Mod. FC-G2 TS ST

Patented

Machine used to insert and remove Pandrol fast-clip type rail clips, with dis-mountable frame. This machine is equipped with a sleeper lifting device.

Cod.F1091B04: 4-stroke engine(3.5kW/4.8Hp)

Weight: 470-520 Lbs (214-237kg)

RAILWAY MACHINERY

VOSSLOH CLIP MACHINE Mod. VTC

Machine designed for the insertion of Vossloh clip type "W14". Upon request, available with dismountable frame. Max Torque: 270Nm.

Cod.F1068B01: 4-stroke engine (9kW/13Hp)

Weight: 560-595 Lbs (255 - 270kg)

VOSSLOH CLIP MACHINE Mod. VTC-L

Machine designed for the insertion of Vossloh clip type "W14", equipped with dismountable frame. Max Torque: 270Nm.

Cod.F1100B01: 4-stroke engine (4.1kW/5.5Hp)

Weight: 395-435 Lbs (180-197kg)

VOSSLOH CLIP MACHINE Mod. VTC - A (W14 Asymmetrical)

Machine designed for the insertion of Vossloh clip type "W14" and "W14 asymmetrical".

Available on request with dismountable frame.

Right torque required: 270Nm adjustable.

Cod.F1068D23: diesel motor (8.2kW/11Hp)

Weight: 595 Lbs (270kg)

VOSSLOH CLIP- POWER WRENCH MACHINE WITH MOVING TRACK TROLLEY Mod. VTC-L-CT

Machine designed for the insertion of Vossloh clip type "W14" and "K" type fixings. Right torque required: 270Nm adjustable. Easy step from vossloh clip to power wrench machine.

Cod.F1100B04: 4-stroke engine (4.1kW/5.5Hp)

Cod.F1100D02: diesel motor (5.2kW/7Hp)

Weight: 440 Lbs (200kg)
