ELECTRICAL PRODUCTS

DC VOLTAGE ELECTRONIC DETECTOR

Bipolar voltage electronic detector with visual and acoustic signalling for use on tramways and metro lines.

Cod.TA0084

SHUNTING CABLES

Device of continuity and short-circuit between the rails. The clamps are made of forged brass suitable for clamping the lower flange of the rail.

Cod.TA0002

SHUNTING CABLES WITH MAGNETIC CLAMPS

Device of continuity and short-circuit between the rails. The terminals are made of stamped brass and equipped with magnets for fast fixing to the rail.
Cat.506-212

Cod.TA0001

SHUNTING CABLES

Device of continuity and short-circuit between the rails. The clamps are made of forged brass.

Cable section:120mm²

Cod.TA0003: Cable length 4 Feet (1.2m)

Cod.TA0005: Cable length 16 Feet (5m)

Cod.TA0006: Cable length 8 Feet (2.5m)

ELECTRCIAL PRODUCTS

SHORT CIRCUITING AND GROUNDING DEVICE

Short circuiting and grounding equipment for railway contact line 3 kV d.c. and feeders.

Cod.TA0080

Cable lenght: 16 Feet (4.95m)

Cod.TA0085

Cable length: 30 Feet (9.2m)

SHORT CIRCUITING AND GROUNDING DEVICE

Short circuiting and grounding equipment for HV overhead lines and installations up to 150 kV.

Cable section: 50mm² or 95mm²

Cod.TA0081

DC VOLTAGE ELECTRONIC DETECTOR

Bipolar voltage electronic detector with visual and acoustic signalling for use on railways lines and installations.

Voltage: 500-3600Vcc

Cod.TA0082

DC VOLTAGE ELECTRONIC DETECTOR

Bipolar voltage electronic detector with visual and acoustic signalling for use on railways lines and installations.

Voltage : 385-1800Vcc

Cod.TA0083
